

POP[®]

ProSet[®] 2500 Rivet Tool

Get the power, lose the weight.

The ProSet[®] 2500 tool sets new standards for pneumatic rivet tools. Designed specifically to set a wide range of blind rivets, including 3/16" (4.8mm) High Strength and Stainless Steel, this tool delivers 2,110 lbs. (9.4 kN) of pulling force with a "highest in class" force-to-weight ratio of 730 lbf/lb (7.18 kN/kg).

The ProSet[®] 2500 tool features many innovative high performance features including a patented "Quick Disconnect" nose housing and jaw case for rapid cleaning and maintenance of the front end without the need for any tools. With the 2500 "Quick Disconnect" Mandrel Collection System (MCS), mandrels are safely collected for easy disposal and cleaner work areas. An air-isolation switch on the MCS prevents air flow when the MCS is disconnected. The tough aluminum casing is designed to prevent damage and enhance the life of the tool.

A left or right 90° swivel air fitting ensures the tool can be adapted to virtually any workstation configuration, while the "on/off" switch minimizes air consumption. The spring return ensures fast, reliable setting cycles reducing operating cost. An extended 5" (140mm) front end is also available for extra reach in special setting situations. The ProSet[®] 2500 is compatible with other Emhart Technologies automation systems including the remote Mandrel Collection System (MCS5000), the POP[®] Rivet Presenter (RP) and the SmartSet[®]. The 2500 series will set 2mm Micro Rivets, 3/32" (2.4mm), 1/8" (3.2mm), 5/32" (4.0mm) and 3/16" (4.8mm) diameter rivets in all materials including high strength structural stainless steel rivets.

Features & Benefits:

- **Ergonomic**
Lightweight polymer construction
Comfortable two finger, low activation force trigger
Directionable air exhaust (MCS model)
- **Performance**
High force-to-weight ratio
Quick disconnect nose housing
Quick disconnect jaw case
Quick disconnect Mandrel Collection System
- **Economy**
On/Off, left or right swivel air fitting
Spring return for a reliable fast setting cycle
- **Adaptability**
Extended 5" (140mm) long front end for extra reach
POP[®] Rivet Presenter (RP) compatible
POP[®] SmartSet[®] rivet monitoring system compatible
- **Safety**
Air-isolation switch during MCS removal

POP® ProSet® 2500 Rivet Tool

Note: Dimensions above inches [mm]

Specifications

Model Number	ProSet® 2500	ProSet® 2500MCS
Weight	2.65 lbs. (1.20 kg)	2.89 lbs. (1.31 kg)
Length	11.42" (290 mm)	11.97" (304 mm)
Height	10.20" (259 mm)	10.20" (259 mm)
Tool stroke	0.71" (18 mm)	0.71" (18 mm)
Pulling force	2110 lbs @ 90 psi (9400 N @ 6.2 bar)	2110 lbs @ 90 psi (9400 N @ 6.2 bar)
Force/Weight ratio	796.2 lbf/lb (7.83 kN/kg)	730 lbf/lb (7.18 kN/kg)
Air consumption	0.076 cu. ft./rivet (2.15 liters/rivet)	2.47 scfm (max) [70 liters/min (max)]

Rivet Capacity

Rivet Type	Material (Body-Mandrel)	Rivet Diameter		
		1/8"(*) (3.0-3.2 mm)	5/32"(*) (4.0 mm)	3/16"(**) (4.8 mm)
