

C50L[®] HuckBolt[®]

Huck-engineered lockbolts
for the most challenging
applications

Vibration resistant
Longer fatigue life
Consistent installations

1/2" - 1-3/8"

C50L® HuckBolt®

Grade 5 fasteners certified to meet or exceed all ASTM A-325 standards.

For applications ranging from railcar to mining equipment manufacturing, C50L® HuckBolt® fasteners from Alcoa Fastening Systems & Rings offer superior vibration resistance and overall durability. Heavy-duty applications demand tough, reliable fasteners. And extensive testing has demonstrated that C50L HuckBolt fasteners meet or exceed the performance of torqued bolts in both shear and tensile strength (with a longer fatigue life). Value is built in, too. Over the lifetime of your product, the investment you make in the quality of C50L HuckBolt fasteners will pay for itself. You won't find a stronger, more reliable fastening system, no matter what your application.

Installs safer and quieter

The C50L HuckBolt system is engineered to be installed without torquing or multiple impacts. Noise level is significantly reduced, and as a result, your installation area becomes quieter, less stressful, and more productive.

The pin is inserted into the prepared hole and the smooth bore collar is placed on the pin

The installation tool is applied to the pintail. When the tool is activated, the jaws in the nose assembly pull on the pintail and the nose anvil pushes on the collar to remove any gap.

The nose anvil starts to swage the collar into the lockgrooves on the pin. Continued swaging causes the collar to lengthen and develop clamp.

When swaging of the collar into the lockgrooves is complete, the pintail separates from the pin which completes the installation cycle.

Successful, consistent installations

Unlike threaded fasteners, the C50L HuckBolt delivers consistent installation results. High costs of calibrating, maintaining, and replacing tools are eliminated. And installation does not require expensive, highly experienced workers.

- Swaged-on collar forms a permanent, vibration-proof connection
- Initial long length of fastener enables pull-out of large gaps
- Pre-load remains constant from installation-to-installation

1 When using 3LC collars, include J dimension in grip dimension to determine grip number.

2 Optional collar at reduced clamping force and tensile strength. Contact AFSR for data. When using 8LC collars, subtract J dimension from grip dimension to determine grip number.

3 H length for 20 (5/8") diameter in F, I or 2CU material is 805 - 770.

Ordering Information

Follow the form below to construct a part number for ordering C50L pins and their respective collars.
Refer to the Grip Tables (page 5) for grip numbers.

Pins

C50L (HEAD STYLE) - (MATERIAL) (DIAMETER) - (GRIP NUMBER) - (COATING)

Example: C50LR-BR16-4 is a C50L HUCKBOLT fastener, Round Head, Carbon Steel, 1/2" Diameter, Grip 4

Bolt Head Style	Prefix	Bolt Material	Code	Diameter	Code	Grip	Finish	Suffix	
Round	R	Carbon Steel	BR	1/2"	16	Refer to Grip Tables on page 5	Zinc Plate, Clear Chromate .0003"	G	
Truss	T			5/8"	20		Zinc Plate, Clear Chromate .0004"	GA	
Large Truss	30	Aluminum 2024 and 6061 special order only		3/4"	24		Geomet - 1 Coat	NP	
90° Flush	90			7/8"	28		Geomet - 2 Coat	D1	
Thread Head	H	Stainless Steel available on request		1"	32		Geomet - 3 Coat	DL	
				1-1/8"	36		Oil Finish	no suffix	
				1-3/8"	44				

Collars

(COLLAR STYLE) - (MATERIAL) (DIAMETER) (COATING) (OPTIONS)

Example: LC-2R16G is a Standard Collar, Low Carbon Steel, 1/2" Diameter, Zinc Finish

Collar Style	Prefix	Material	Code	Diameter	Code	Coating	Code	Options	Suffix	
Standard	LC-	Low Carbon Steel	2R	1/2"	16	Zinc	G	Tab-Lok	L	
Flanged	3LC-			5/8"	20	Additional coating options available				
Low Profile	8LC-	Aluminum special order only		3/4"	24					
Low Profile (44)	AC-R44			7/8"	28					
				1"	32					
				1-1/8"	36					
				1-3/8"	44					

Tab-Lok™

The Tab-Lok feature makes sure

Tab-Lok™

The Tab-Lok feature makes sure the collar stays on the pin, before installation, in overhead and down slanted pin placements. To order Tab-Lok collars refer to adjacent charts.

Alcoa Fastening Systems & Rings

For more than 120 years, the name Alcoa has been recognized worldwide as a strong leader in product quality and customer support. These strengths are found in every product manufactured for Alcoa Fastening Systems & Rings, offering the greatest breadth and depth of fastening system solutions in the industry.

Alcoa Fastening Systems & Rings (AFSR) maintains company offices in the United States and in many other countries. AFSR fastener distributors are also located in many of the world's industrial centers, where they provide a ready source of AFSR fasteners, installation tools, tool parts, and application assistance.
